

PROFESSIONAL OVERVIEW

Resourceful and mission-driven full-stack developer-in-training with 7+ years of leadership in fast-paced environments. I bring a mix of technical expertise, clear communication, and a get-it-done attitude to every project. Skilled in front-end and back-end technologies, I thrive in collaborative spaces where performance, usability, and great teamwork matter. Currently pursuing certifications in front-end and back-end development, and ready to tackle real-world challenges with code and confidence.
